LIGHT

Light brings us into contact with reality. It gives us the capabilities to love—love reality, love God. Our lives are saturated with beginnings. Progression to ends requires light. Each college year is a light that brings wisdom, and aids us in the achievement of our most important end, the Light of God.

Our theme is that of light and its different aspects. Each aspect is essential.

CAMPUS LIFE

The
reflection
of
friends;
the
modified
light
of
the
shadow

campus life is faces

it is people

it is vitality, movement.

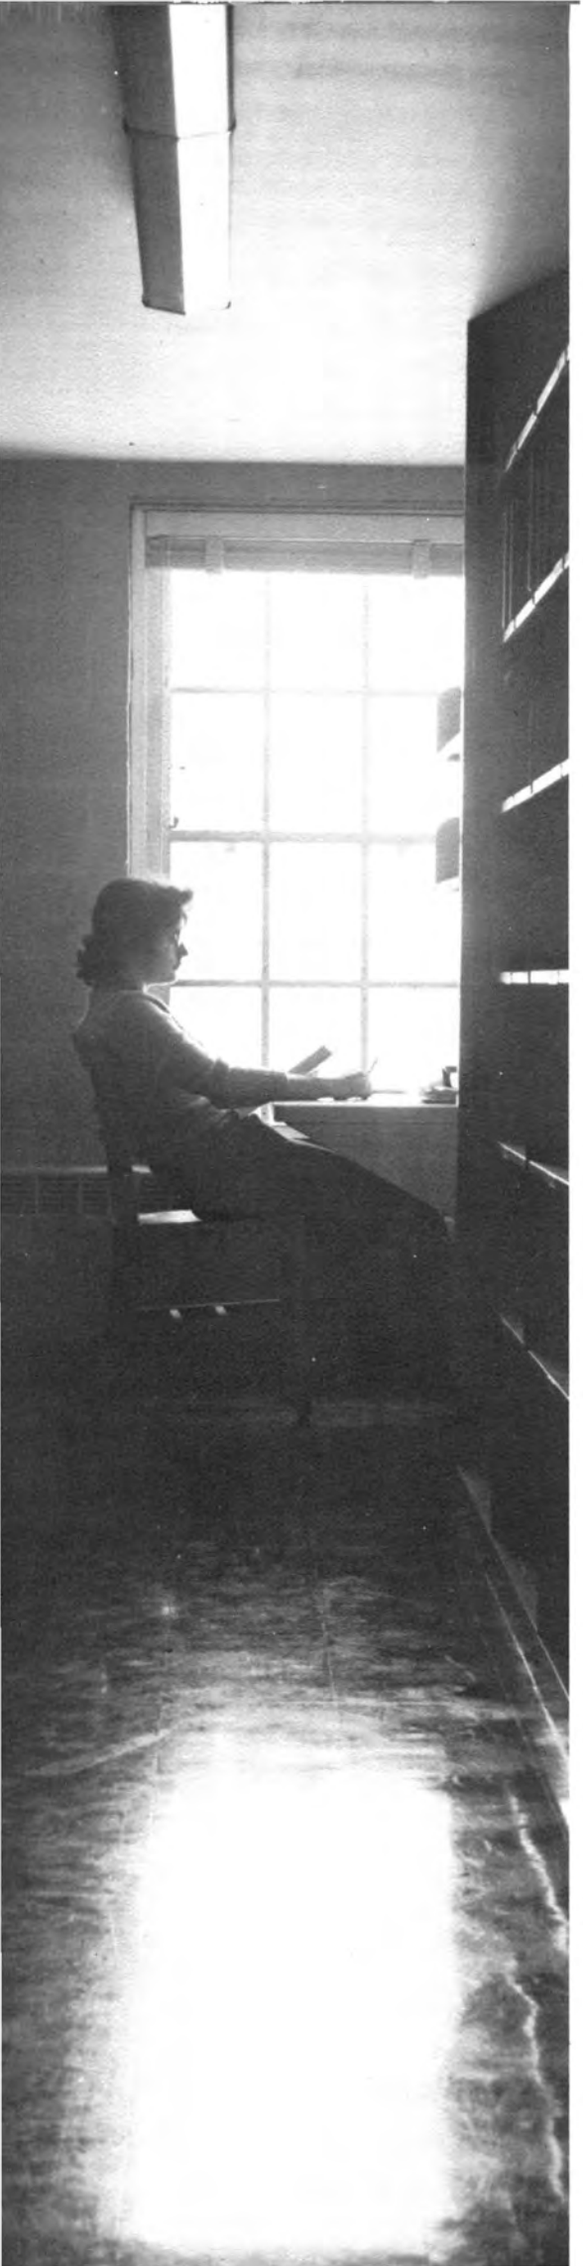

it laughs in its off moments

but there are serious ones too...

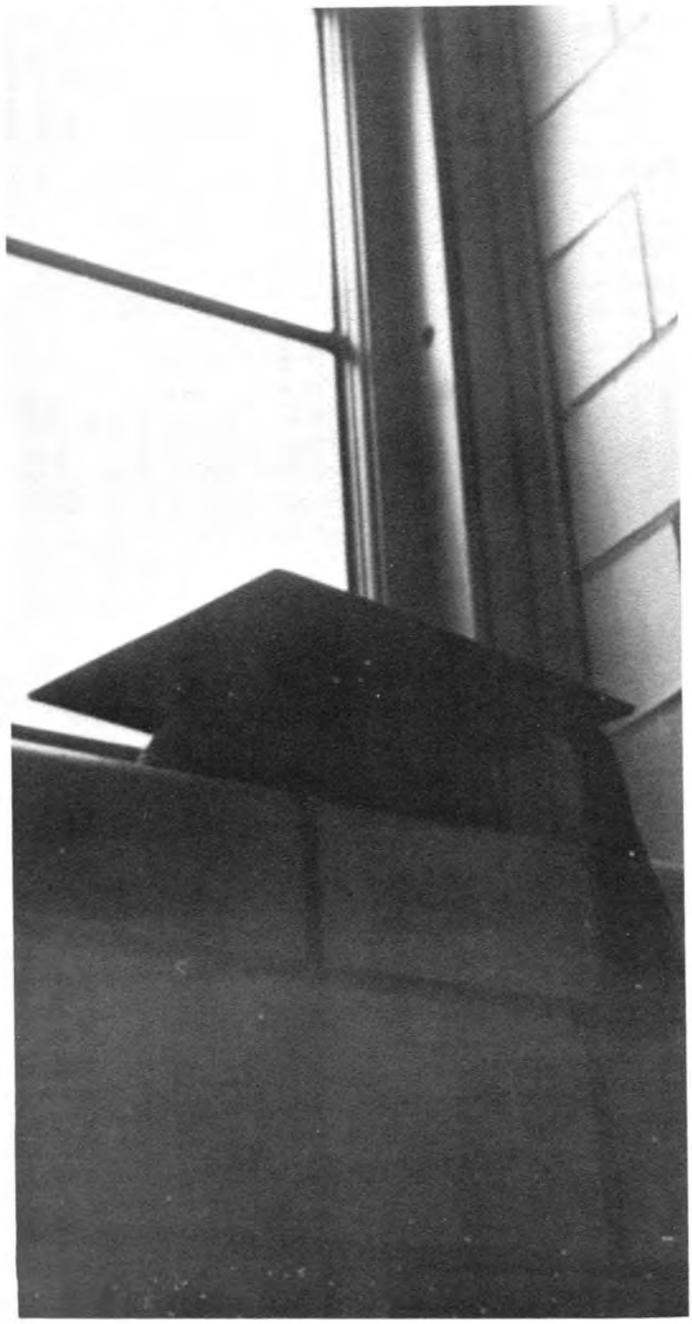

...and silent.

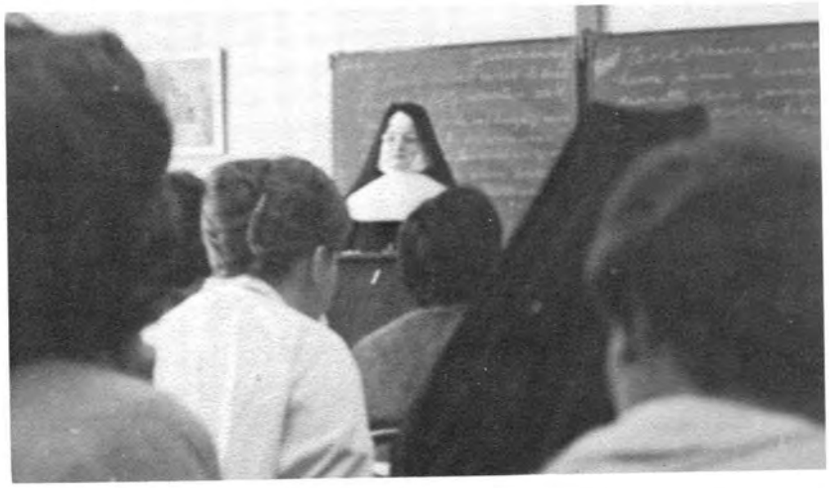

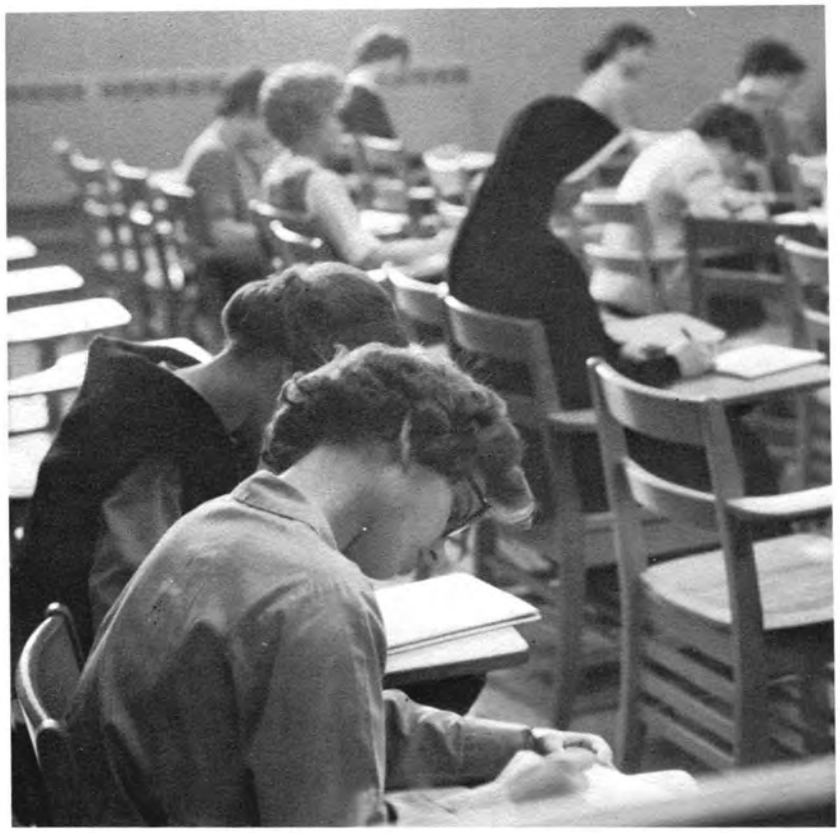

we search
after a truth
and sometimes
we find it...

...on a window sill

...in the classroom

or in a painting

in patient waiting, perhaps

or in a quiet corridor

and sometimes at 3 a.m.
before everyone's toughest exam.

four years pass slowly yet quickly. we look back in joy and fear, regret and satisfaction, awe and expectation.

together

and alone

through winter memories,

spring fever

and end of the year slump.

through
singing
entertaining
giving

we become.

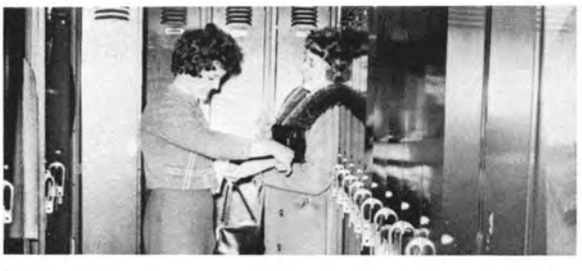

college conversation
the dialogue
among friends,

the practical jokes, the parodies

all complement
the term paper
and the library
in subtle
yet profound ways
in our total education.

in moments of desperation

and in moments of let's pretend

and often in the peaceful contemplation of a long walk

we

grow.

...light leaves its imprint.
